

AGI Society

Twenty Years of Community

Prepared for the next twenty years of AGI

Our History

For 20+ years AGI Society has been the community dedicated to researching, discussing, and shaping the future of AGI. It is more important than ever that our global community continue to provide education for humanity on AGI with research, access & empowerment.

19 Annual Conferences

The dedicated global forum specifically focused on AGI

The premier academic conference dedicated to the topic of AGI, since 2008

Global Community

5000+ Researchers, authors and contributors across disciplines and 24 nations

Journal of AGI

A peer-reviewed scientific record of the field

Technical leadership

Active participation from the leading AI practitioners and researchers worldwide

The Time Is Now

AGI is the defining public issue of our time

The Stakes are Public

AI is having an effect on every aspect of society. AGI will have vastly more impact than current AI systems. Decisions on how humanity plans for, and responds to AGI, belong to the public.

AGI Is Advancing

Narrow AI capabilities are rapidly improving, with breakthroughs arriving faster than our social systems of oversight, research and public understanding can manage

Organizations Are Unprepared

The majority of existing institutions are not structured or built for the AGI era. Humanity needs resilient institutions, that can coordinate globally, and adapt quickly, to the AGI world

The AGI Society Is Ready

Scientists, researchers, policy makers, builders, & citizens are begging for ways to contribute and shape the future. The AGI Society is the home for cooperation and impact on any topic where AGI will make an impact
